

Where in the neighborhood has "polygon"? (Vertically aligned unit)

Pre - K

Recognize and sort triangles, squares and rectangles.

Name and draw triangles, squares and rectangles

Kinder

Describe 2D shapes

Identify 2D shapes

Compare 2D shapes

1st grade

Combine 2D shapes to create new 2D shapes

Describe and identify 2D shapes

2nd grade

Cut 2D shapes apart and identify new 2D shapes formed

Describe attributes of 2D shapes

3rd grade

Identify congruent shapes

Create and identify shapes with lines of symmetry

4th grade

Identify acute, right and obtuse angles in polygons

Identify parallel and perpendicular lines in polygons

5th grade

Sketch 2D transformations such as translations, reflections and rotations in Quadrant I

Identify the transformation that generates one figure from the other when given two congruent figures on a coordinate grid
