INTRODUCTION TO SCHOLARLY PUBLISHING

—

For Grad Students and Early Career Faculty
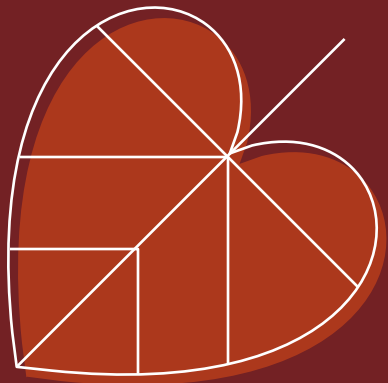

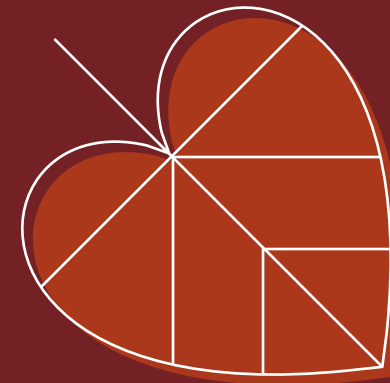

AGENDA

- Finding a Journal

- Peer Review

- Navigating Journal Requirements

- Open Access

- Post Publication

FINDING A JOURNAL

- Libguide: https://libguides.ecu.edu/journalpub

  https://library.ecu.edu/ > Research Guides > Faculty Resources > Journal Selection and Evaluation

- Ask your department if they have a list of preferred journals/look at where your mentors have published

- Look at the journals that publish the papers you are citing

THINGS TO CONSIDER FOR JOURNALS

Publishing Timeline: one issue a year, special issues only, one issue a month, etc.

What Article Types they Accept: Original research only? Reviews? Case studies? Etc.

Audience: is it a professional/trade or scholarly journal (especially for education journals and other professions)- who do you want to read it/who do you want to influence?

Value/'Prestige': what is the acceptance rate? The citation rate? What does your department/field value?
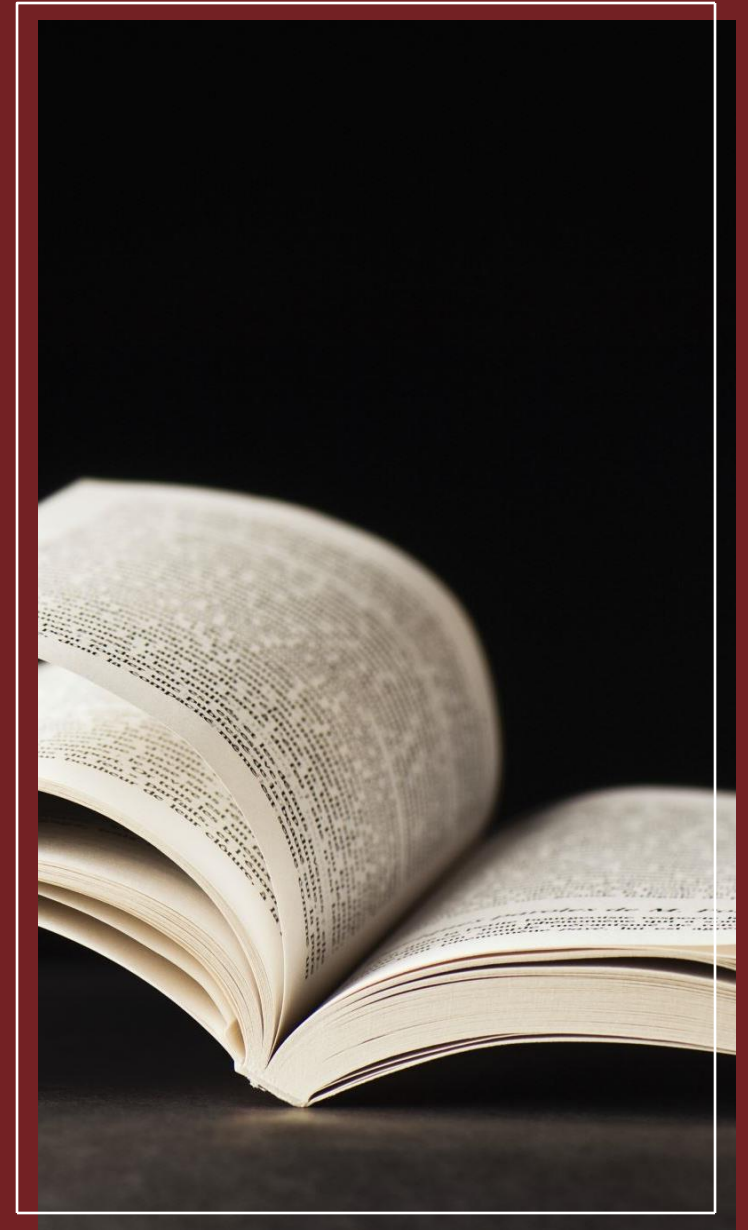

PEER REVIEW TYPE

Double blind: author doesn't know reviewers, reviews don't know authors

Single blind: reviewers know who the author is, but author doesn't know reviewers

Open peer review: both authors and reviews are known to each other

Post Publication: used in pre-prints and some books; reviewers post their reviews as public comments on the publication

WHAT YOU MIGHT HEAR AFTER PEER REVIEW

Exact language and options varies by publisher, some possibilities include:

- Accepted

- Accepted with Minimal Revisions

- Revise and Resubmit

- Out of Journal Scope
  some publishers might recommend a different journal in their company that might fit better

- Rejected

It can take weeks to months to hear back after submitting your article, exact timelines vary by journal

NAVIGATING JOURNAL REQUIREMENTS

- Pre-prints/Dissertations

- Contributor Roles Taxonomy (CRediT)- listing authors

- Data sharing

    OSF and Dataverse

    10/1 OFE session on Data Management Plans

JOURNAL STYLE REQUIREMENTS

- Check section headings such as: about the journal, publish with us, author information, instructions for authors, etc.

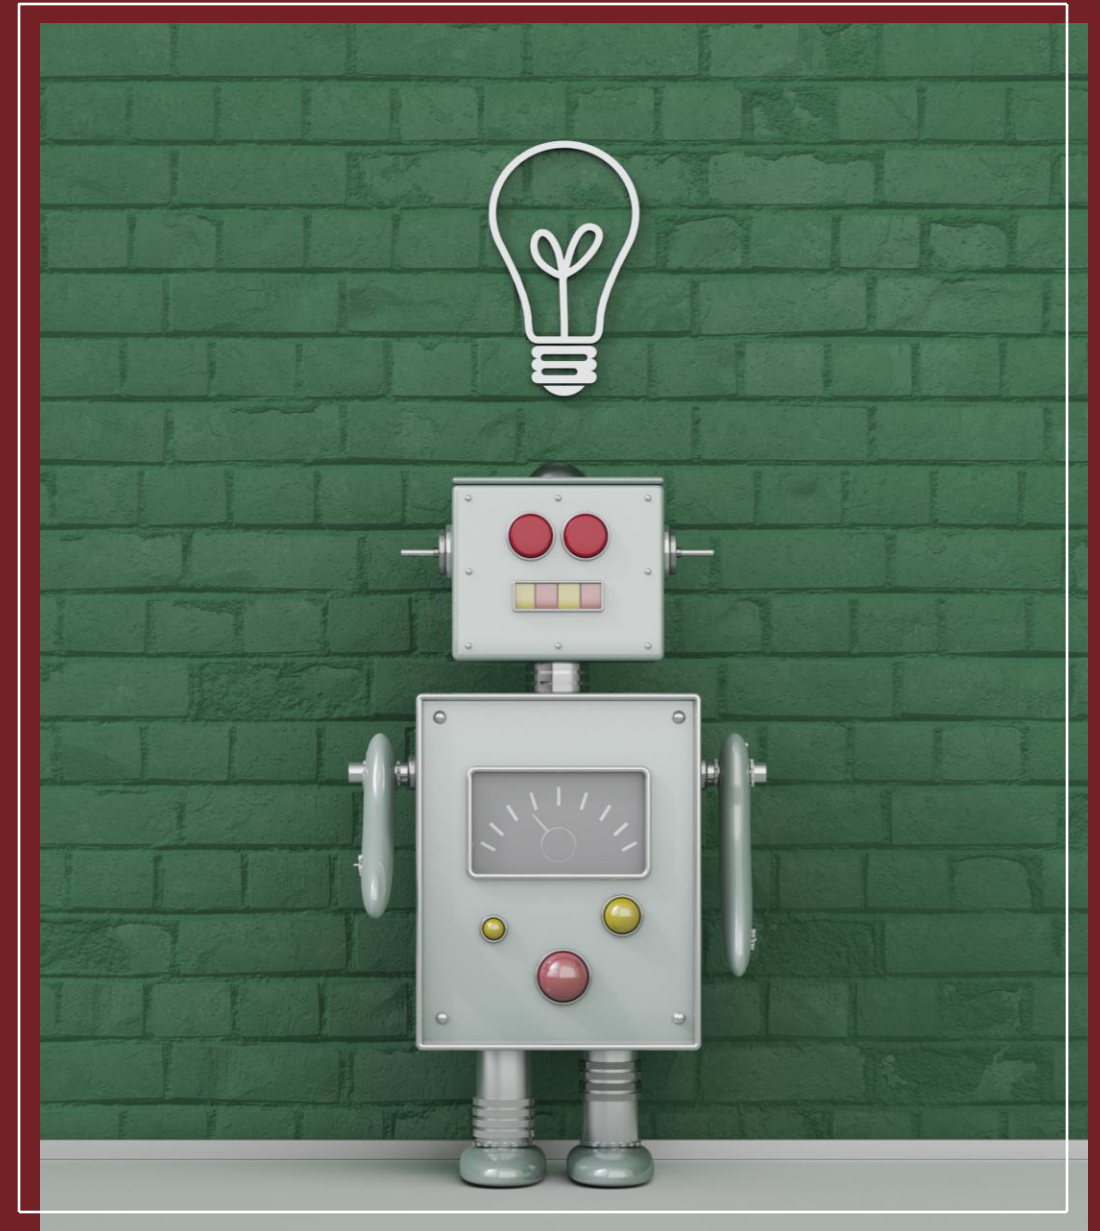

- Example journals:

  Scientific Reports

  Communication Studies

GENERATIVE AI

- Disclosure <u>required</u> for all journals

  which software and for what

- Most allow AI for brainstorming and grammar, but journals vary for content creation

  check author guidelines or publishing ethics

For more info: OFE workshop 10/16

ORCID
[HTTPS://ORCID.ORG/](https://orcid.org/)

- Links your work to YOU (name changes, institution changes, too many John Smiths in Physics, etc.)

- Can autofill information for publishers

- Can autofill information into Faculty 180

- If you would like help, you can email your CV to scholarlycomm@ecu.edu and we can do it for you

ORCID AND FACULTY 180

						University	
StandardCV			Standard CV with Traditional and List displays, showing empty sections.			East Carolina University	👁
Standard-CV2-Tabular			CV with tabular display, hiding empty sections.			East Carolina University	👁
Summary Information for Personnel Action			This CV template utilizes a traditional date format.			East Carolina University	👁
Test Credentialing Report			This CV template utilizes a traditional date format.			East Carolina University	👁

FUNDING REQUIREMENTS

Nelson Memo, Gates policy, NIH etc- Open Access Requirements

Gates now requiring preprints and not funding APCs

Data sharing- OSF, Dataverse, etc

Some grants require funding ID to be submitted as part of article to journal or repository to track compliance
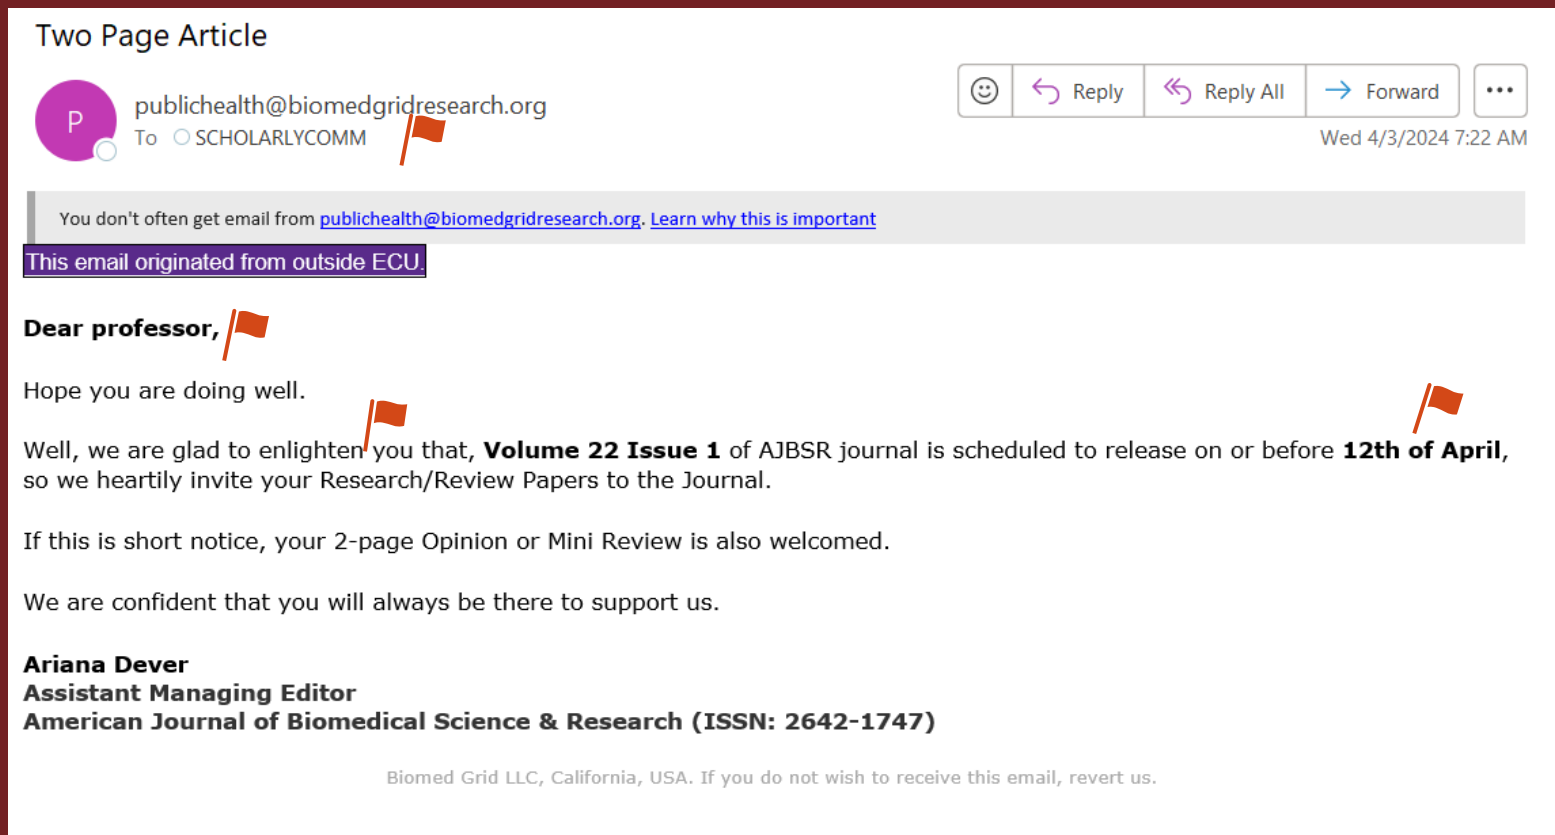

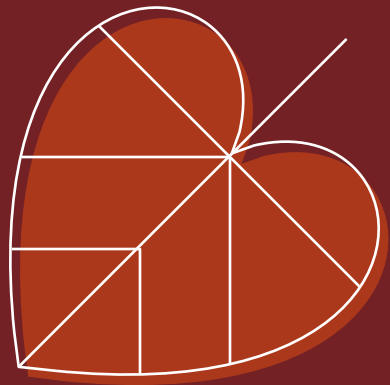

AVOIDING PREDATORY PUBLISHERS

- [Think check submit](#)

  For more in-depth information see the OFE workshop on 11/12 11am

- You can always reach out to Scholarycomm@ecu.edu with your journal title if you are unsure

BE SUSPICIOUS OF EMAIL INVITATIONS FROM JOURNALS YOU DON'T KNOW

Two Page Article

publichealth@biomedgridresearch.org

You don't often get email from publichealth@biomedgridresearch.org. Learn why this is important

This email originated from outside ECU.

Dear professor,

Hope you are doing well.

Well, we are glad to enlighten you that, **Volume 22 Issue 1** of AJBSR journal is scheduled to release on or before **12th of April**, so we heartily invite your Research/Review Papers to the Journal.

If this is short notice, your 2-page Opinion or Mini Review is also welcomed.

We are confident that you will always be there to support us.

Ariana Dever
Assistant Managing Editor
American Journal of Biomedical Science & Research (ISSN: 2642-1747)

Biomed Grid LLC, California, USA. If you do not wish to receive this email, revert us.

OPEN ACCESS

—

Taking research out from behind the paywalls
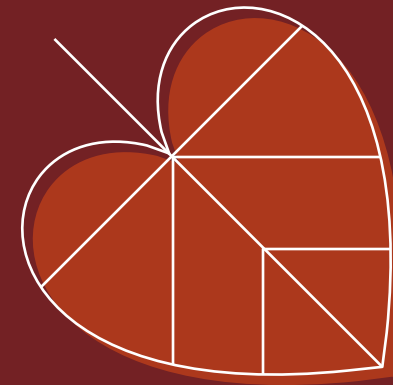

TYPES OF OPEN ACCESS

Diamond:
 fully open journal with no fees for authors

Gold:
fully open journal with APCs

Hybrid:
authors can chose to pay APC to have their article open or article will be behind paywall

Green (self archiving):
after embargo author can place article in IR, ResearchGate, academica.edu, or personal website

APC (ARTICLE PROCESSING CHARGE/FEE)

Publishing costs money (software, formatting, storage, etc)

Even diamond oa has a cost- ECU hosted journals are free to publish in, but Joyner pays some costs and the journal pays a fee (department or society foots the bill)

Fee varies by journal and by discipline

OAPSF- Open Access Publishing Support Fund

Reimburses your department part of the APC

PUBLISHERS WITH WAIVED/REDUCED FEES FOR ECU AUTHORS

Cambridge University Press

PLOS

The Company of Biologists

Frontiers (covers 50%)

IOP Publishing

Sage (10% discount)

Springer Nature

IGI

Wiley*

See Sustainable Scholarship for more info

CC LICENSES

| LICENSES	TERMS
CC (BY)	**Attribution** (BY) — Others can copy, distribute, display, perform and remix your work if they credit your name as requested by you
CC (BY SA)	**No Derivative Works** (ND) — Others can only copy, distribute, display or perform verbatim copies of your work
CC (BY NC)	**Share Alike** (SA) — Others can distribute your work only under a license identical to the one you have chosen for your work
CC (BY ND)	**Non-Commercial** (NC) — Others can copy, distribute, display, perform or remix your work but for non-commercial purposes only.
CC (BY NC SA)	
CC (BY NC ND)	

PRE-PRINTS
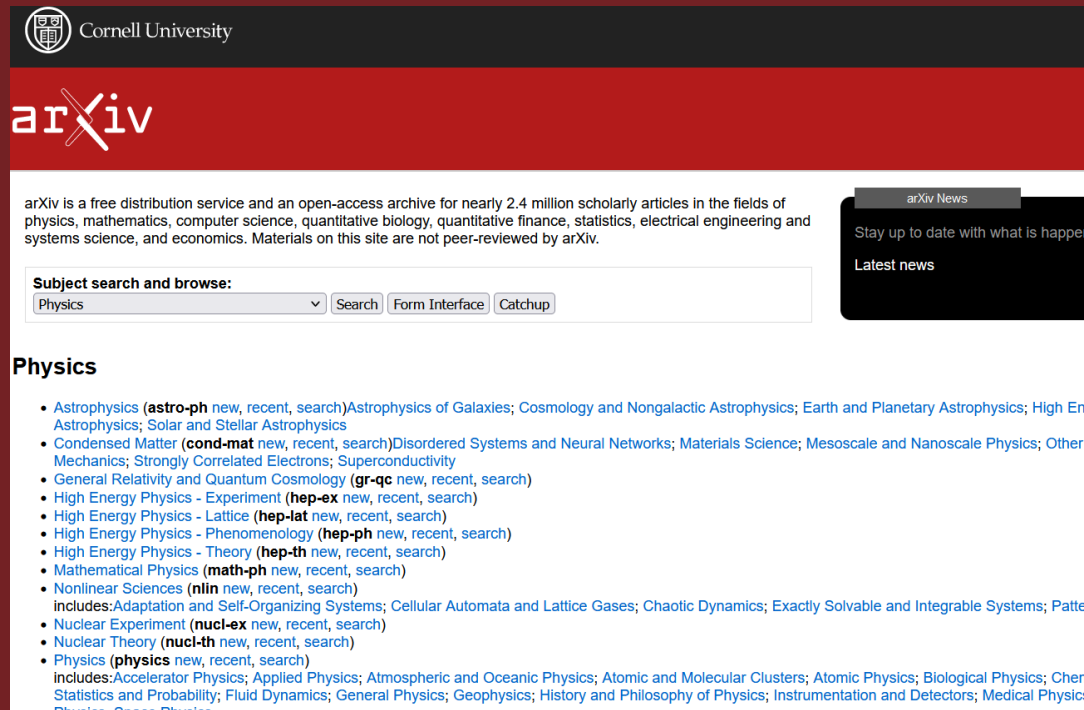

- Common in math, physics, and computer science

- Gained popularity during covid when researchers couldn't wait for peer review to get new research on covid vaccine and medications

- Puts article in world before submitting to journal- hinges on open peer review where other researchers comment on the article and the authors adapt/update as they get feedback

- Examples: arXiv; ASAPbio preprint directory
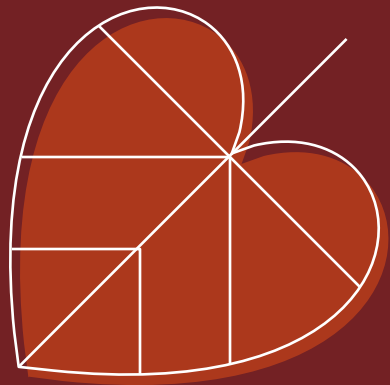

POST PUBLICATION

—

Metrics and Repositories

GREEN OPEN ACCESS

Repositories

- ScholarShip- Institutional Repository
https://thescholarship.ecu.edu/home

- Research gate
https://www.researchgate.net/

- Scholars@ECU
https://faculty180.ecu.edu/scholars/
OFE workshop Oct 15th

- Field specific repositories

- After an embargo, you can usually put paywalled articles free online in repositories
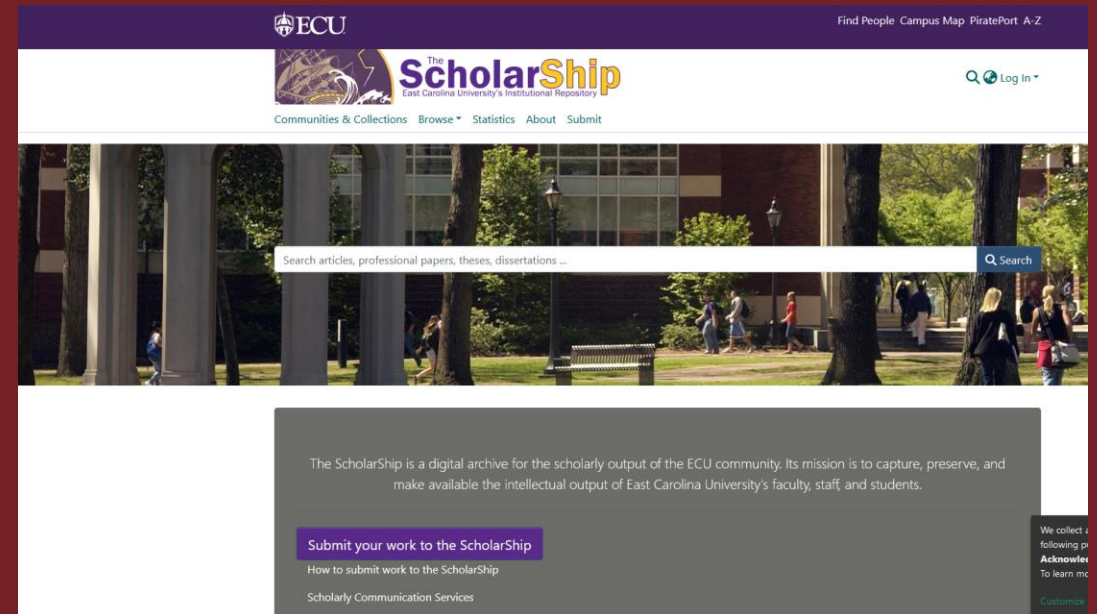

METRICS

Journal Level

- Journal Citation Report- # of citations to articles published 2 years before/ total # of articles published during a 2 year span

- SCImago Journal Rank- based on number of journals in database, number of papers form journal in database, number of citations https://www.scimagojr.com/

Article Level

- Citation counts- google scholar, proquest database, medline, or publisher platform

- Altmetrics- media citations (tweets, blog posts, news mentions, etc.)

Measuring your Research Impact Oct. 24th 11am-12pm
